# RESISTRON

TEMPERATURE CONTROLLER  
 FOR HEATSEAL BANDS  
 TO SEAL PLASTIC FILMS

## RES-201

### FEATURES

- ★ Compact in size with easy DIN rail mounting for inside the control cabinet.
- ★ Analogue temperature output signal, 0-10VDC, to read actual value.
- ★ Snap on terminals.
- ★ High reliability through hybrid technology.
- ★ Jumper for easy selection of frequency (50 - 60Hz).
- ★ Easy installation and operation.
- ★ Cost effective - Improved production, less scrap.

### TABLE OF CONTENTS

1. APPLICATION AND SHORT DESCRIPTION	7. HEATSEAL BAND
2. PRINCIPLE OF OPERATION	
3. OPERATION	8. DIMENSIONS OF CONTROLLER
3.1 Control Function	
3.2 Zero calibration	
3.3 Selecting the right temperature	
3.4 Analogue output (actual temperature)	
4. WIRING DIAGRAM	9. TECHNICAL DATA
5. OPERATING INSTRUCTIONS	
6. OPERATING MODES	10. ACCESSORIES
6.1 Constant heat	
6.2 Impulse mode	
6.2.1 Timing of impulse	
6.3 Current diagram	12. GENERAL INSTALLATION GUIDELINES
